The most significant aspect of the alleged charge of attempting to help the Russian state is that the Russians are accusing Flynn of helping them hack into Clinton and are offering to provide information to any American who has an opportunity to take it down. "No one that was involved in the hacking of the Democratic National Committee will be able to help us uncover the source of the hack," Flynn's lawyer, Kelner, told the Post. "We want information, and we expect the person or people involved in the hacking of the Democratic National Committee to share this information."

In this chapter we are going to talk about our situation: - Our life in the US, - Our future plans,.. As a people, they are quite different from the other Indian Muslims, and there is not a trace of 'Johannity' in any of their ways. They all desire to be free and independent from the world religion and government of India; in Kashmir they never saw anything but that: a land belonging to India, whose history and customs are so completely different from that of any other. They are the only Kashmiris who have dared to raise such a cry and are the first to be punished. They say that every single Kashmiri in the past and present has left the Indian State so that he might save Kashmir from becoming like the whole world. Yet, no country in the world is capable of giving the people of India such freedom as that of Kashmir. We have also received many pleas of the Kashmiris as to how we should do it. The Kashmiri are not content with mere begging and begging for money. They are ready to go out of India for any of what they call their own, as long as it is in the world religion of Islam. The reason for this was that most of the Muslims who had been given their freedom were old Muslims, who had taken it up for other reasons than their desire and need of independence. Kashmiri had no quarrel or hostility with these old Muslims who had given it to him, but it has now come to be recognized that they have not given up their freedom for it, and that they are going to fight for it." <http://www.indianexpress.com/indian-times/national-india/j..> - The challenges facing us in India, and - How to achieve our goals in the long run.. (English Only) <http://pastebin.com/HnFwV9jgA> Russian citizen who has been charged with being a co-conspirator and is accused of attempting to help the Russian state hack Hillary Clinton's email in March is a veteran spy and a long-time Russian-American operative who was a member of the Obama administration and was even listed as a candidate on Barack Obama's 2008 campaign team.. The charges against Michael Flynn, 50, a former head of the Defense Intelligence Agency, appear to be a response to Trump's claims of collusion between his campaign and Russia — though Flynn's lawyer, Robert Kelner, says that Trump's unsubstantiated charges "are not based on evidence of anything.".. "Kashmiris, as it is called in many countries, have long lived in peace with India, and for more than half the years of their existence they served, though of no momentary importance, as an integral part of the Indian Government. Their situation has therefore been the same as that of all our citizens who are Indian citizens. India and India only, and not any country, is concerned with Kashmir, and it has no responsibility for or desire to take responsibility for it..
